general dentistry services and can be reached at 783-3714.

Successor to the Olney Sanitarium, Richland Memorial Hospital (RMH) was completed and opened to the public in 1953. RMH is proud to offer quality health-care services to the people of Olney and Richland County with its primary service area branching throughout Southeastern Illinois.

RMH is a licensed, not-for-profit, 135-bed facility and is accredited by the Joint Commission on Accreditation of Healthcare Organizations. On any given day at RMH, one will find more than 450 healthcare professionals working toward a common goal and the satisfaction and safety of the patients and families served by the hospital.

A comprehensive array of services are provided by Richland Memorial. The hospital offers 24-hour emergency facilities with its Paramedic Level Ambulance Service being the County's 9-1-1 Emergency Responder. Helicopter access is available to numerous prominent Midwestern Trauma Centers.

RMH offers a dedicated Obstetrics and Gynecology Wing with Levels I and II Nursery services for newborns. Nursing staff are certified in advanced life support for neonates. They offer numerous educational

programs for new and expectant parents.

Extended and Transitional (Skilled) Care Services are provided by Richland Memorial Hospitals Long Term Care Unit. Patients enjoy a comfortable, loving environment with immediate, convenient access to nursing, rehabilitative, and ancillary services provided on-site.

Rehabilitative services offered by RMH include Physical Therapy, Occupational Therapy, Speech/Language Pathology, and Lymphedema Management. RMH also provides a 3-phase Cardiac Rehabilitation program for people with heart disease.

RMH is home to a 16-bed inpatient psychiatric center, providing mental health services to adult and geriatric patients. Outpatient psychiatry services are offered through the hospital, as well.

State-of-the-art surgical services are offered at Richland Memorial in a number of specialty areas, including: General Surgery, Obstetrics/Gynecology, Oncology, Ophthalmology, Orthopedics, Otolaryngology, and Urology. RMH also offers a dedicated G.I. Lab, which is utilized for a number of gastrointestinal procedures.

A Same Day Surgery Nursing Unit is available for short-term stays and patients receiving outpatient IV
